About Me	<p>I finished school in 2011 after which I did my B.Comm degree in Financial Accounting and graduated in 2015 then started doing my Honours in 2016 and started my articles at JCB Incorporated in 2017 where I worked as an auditing clerk and studied part time. During that time I decided that it would be better to make a career change. I changed my major to IT and I recently completed my BSC IT degree at NWU Vaal Campus. My goals are to gain experience and build people skills. I aim to become a UX Designer as I like the creative side of things as well as the logic. I enjoy being creative and am also keen to use this creativity to create a stimulating work environment. I work well in a team and can communicate well at all levels and ages. Mature and lively, I have a variety of outside interests and remain committed to improving my IT skills further and contributing to the success of the business that I am employed at.</p>
